

## ULTIMATE MOVIE

When space is at a premium and a sensational 5 channel home theater and music speaker experienced is desired you need look no further than the Ultimate Movie system. The towers are designed with an incredibly slim profile that allows it to easily integrate into any décor yet they also possess a powerful 8" side firing subwoofer to provide deep, thunderous bass. The incredibly convenient sized bookshelf and center channel speakers are tonally matched to the towers to round out the enveloping effect. Bring home the big sound you love in the little package you didn't think was possible!
